-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

This application is in condition for allowance except for the following formal matters:

The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they include the following reference character(s) not mentioned in the description: See item 33, in figure 1 and item 74 (2 places) in figure 6. Corrected drawing sheets in compliance with 37 CFR 1.121(d), or amendment to the specification to add the reference character(s) in the description in compliance with 37 CFR 1.121(b) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

The disclosure is objected to because of the following informalities:

On line 19 of page 1 of the specification, reference numeral 2 is used to identify "stubs" in figure 1. The beams in figure 1 are designated by reference numeral 11 as stated in at least line 19 on page 1 of the specification.

On line 31 of page 1 of the specification, reference numeral 3 is used to identify "beams" in figure 1. The beams in figure 1 are designated by reference numeral 12 as stated in at least line 20 on page 1 of the specification.

Appropriate correction is required.

Claim 1 is objected to because of the following informalities: Line 7 on page 7 has a grammatical error. "an positive" should be "a positive". Line 17 on page 7 contains the statement "wherein by above mentioned components," carries no patentable weight and should be deleted.

Claim 3 is objected to because of the following informalities: Line 24 on page 7 has a grammatical error. The term "and negative" should read "and the negative".

Claim 4 is objected to because of the following informalities: Lines 29 and 30 on page 7 have grammatical errors. The term "mounting positive" should read "mounting the positive" and the term "and negative" should read "and the negative".

Claim 5 is objected to because of the following informalities: Line 1 on page 8 has a grammatical error. The term "and negative" should read "and the negative".

Claim 6 is objected to because of the following informalities: Line 4 on page 8 has a grammatical error. The term "and negative" should read "and the negative".

Claim 7 is objected to because of the following informalities: Line 8 on page 8 has a grammatical error. The term "and negative" should read "and the negative". Line 11 on page 8 has a grammatical error. The term "and negative" should read "and the negative".

Claim 9 is objected to because of the following informalities: Line 18 on page 8 has a grammatical error. The term "installed positive" should read "installed to the positive". Line 18

Art Unit: 2615

on page 8 has a grammatical error. The term “and negative” should read “and to the negative”.

Line 20 on page 8 has a grammatical error. The term “and negative” should read “and to the

negative”. Line 23 on page 8 has a grammatical error. There are two commas after “standby

port”. The second comma should be deleted and the word “and “ should be inserted in place of

the second comma.

Appropriate correction is required.

Conclusion

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
